JFK assassination records appeals Harold Weisberg 10/13/79
New Orleans Metropolitan Crime Commission
Jim Garrison

Under the former FBIHA Aaron Kohn the New Orleans crime commission spearheaded attacks on Jim Garrison's JFK investigation from the outset.

Kohn and his commission were very public in this. In Section 40 of 62-109060 there is a booklet they published, which is in accord with the FBI's position. It received considerable public attention. This was before Garrison's "probe".

In the same Section there is a Not Recorded serial of 1/17/64.

What "Action" is recommended onx page 2 is obliterated.

I/appeal the withholding.
